

NEVER WASTE A WORKOUT

wahoo runfit

Wahoo's RunFit fitness app is the ultimate way to track your heart rate, calorie burn, and workout data for running and cardio workouts with your smartphone on TRUE products equipped with Wahoo Smart Technology. RunFit also features Apple Watch integration and the ability to share workouts to other devices and apps like NIKE +, Strava, and MyFitnessPal. It's the only running app you'll ever need.

Simply download the RunFit app to your smartphone and then connect the treadmill, bike, or elliptical before beginning workout. When workout is completed, share and review your results!
