- User-friendly tabs, connectivity, and built in workouts
- Up to ten (10) user profiles

8.5" LCD

- Quick keys, connectivity, and challenging programs

Warranties outside the U.S. and Canada may vary - Please contact your dealer for details. Specifications subject to change without notice.

*The stated "Horsepower"/ "continuous Horsepower" (HP/CHP) is a standard reference in the treadmill market, primarily used to aid consumers in making comparisons. This CHP rating is ascertained via lab-based dynamometer tests, which evaluate the mechanical prowess of the motor. Its important to note, however, that the CHP rating is not reflective of the treadmill's working horsepower in a regular home setting. In everyday domestic use, the motor's horsepower doesn't correspond to the CHP value displayed.
